Summary

Software Engineer with 4+ years of experience in Full Stack Web Development with ASP.NET Core, React JS and Cloud technologies like Azure.

Work Experience

Team Lead

📅 April 2023 - Present

🏢 InfoZest Digital Solutions, Navi Mumbai

- Leading a team of developers to create and apply a scalable architecture using ASP.NET Core and Next JS.
- Offering technical guidance and mentoring to junior developers, conducting regular code reviews, and implementing best practices to uphold code quality and sustainability.
- Working closely with product managers and business analysts to collect requirements and translate them into technical specifications that align with project goals.
- Developed RESTful APIs for third-party system integration, utilizing frameworks like ASP.NET Core and Entity Framework.
- Developed and maintained a CI/CD pipeline using Azure Devops for the ASP.NET Core and Next JS applications.
- Helped in migrating Web APIs from the legacy ASP.NET Framework (v4.7.2) to ASP.NET Core (v8.0).

Tech Used: ASP.NET Core, Next JS, Redux, Tailwind CSS, SQL Server, Azure CI/CD, Azure AD B2C

Module Lead

📅 April 2022 - March 2023

🏢 InfoZest Digital Solutions, Navi Mumbai

- Worked alongside Project Managers to migrate Internal Business Process Tool from Jira Service Desk to HubSpot Service Hub.
- Worked with HubSpot CRM Tool to create Workflows and HubSpot Custom Code using JavaScript as programming language.
- Designed and developed a WEB API application to integrate the existing suite of applications with HubSpot CRM.
- Developed standalone API applications to integrate with third party APIs to facilitate the business process.
- Rewrote an existing ASP.NET Core app using best practices and reduced the performance bottlenecks which helped to increase the API response speed by 33%.

Tech Used: ASP.NET Core, HubSpot, Node JS, SQL Server

Junior Software Engineer

📅 March 2020 - March 2022

🏢 InfoZest Digital Solutions, Navi Mumbai

- Worked on revamping the Billing Section of the Web App and integrating with a Payment Provider.
- Worked on API changes to improve the calculation of the Sales Tax on the website by integrating with a third-party Tax Info provider.
- Worked on changes in the Jira Plugins (ScriptRunner) to facilitate the Internal Service Tickets using Groovy as the programming language.
- Worked on fixing the bugs in the production Web App by using Error Monitoring Tools.
- Assisted on a project to transition from Telerik DataAccess to Entity Framework Core as an ORM in the application.
- Designed and developed Responsive User Interfaces using HTML, CSS and Ember JS.
- Worked alongside senior engineers to analyze and address the SEO issues on the website.
- Involved in writing Unit tests and E2E Integration tests (server side). Also assisted in Testing of the apps till the JIRA closure.

Tech Used: ASP.NET Web API 2, EF Core, SQL Server, Ember JS, HTML, CSS, jQuery, Jira ScriptRunner

Skills

Backend: C#, ASP.NET Core, Entity Framework Core

Frontend: HTML, CSS, JavaScript, TypeScript, React JS, Next JS, Ember JS

Database: SQL Server, Familiarity with PostgreSQL

Cloud: Azure App Service, Azure Devops

Utilities: Postman, JIRA, Confluence, Git, SourceTree, Winmerge

Education

B.E. EXTC

🎓 A. C. Patil College of Engineering, Kharghar
2019

HSC

🎓 Karmaveer Bhaurao Patil College, Vashi
2015

SSC

🎓 Navi Mumbai High School, Vashi
2013

Strengths

- Willingness to Learn
- Team Work
- Optimistic
- Active Listening
